

# CHARTING NOTES

An example of the  
format!

Method	Decription	Application	Pros	Cons
Topic 1				
Topic 2				
Topic 3				
Topic 4				

## FOCUS:

- Determining pros and cons of different factors or "methods" of your subjects.

## HELPFUL WHEN:

- Working with analytical articles!

When creating these notes, you'd want to make a table. It usually has 4 columns consisting of the "method" or opinion on the far left, pros, cons, and your opinion of the topic.

You can always add or delete columns based on your personal needs for the text you're taking notes on!

**HAPPY NOTE TAKING!**
